When communicating, not only do people interact, but they also experience each other. We often take risk of opening ourselves to others, just so we could understand and acknowledge them. Only when we do so, the connection becomes real and honest. Only then it becomes meaningful.

B R A N D

Egli Design, which was founded by Egle Mieliauskiene, is a brand that pays tribute to the persistent fashion and brings modern art culture with the heritage of classical tradition in handmade artistic contemporary furniture manufacturing. The brand's goal is to create and manufacture pieces which would trigger emotion, excitement and a feeling of nostalgia. Hence, these unique pieces are produced in small series up to 8 units, which makes the works fall into the category of collectibles.

The workshop brought together creative people, professionals and excellent craftsmen who all love their work just as much as Egle does. Thanks to them, her furniture became beautiful sculptural pieces that stimulate the imagination.

The company was founded in 2012, while it released its first collection in 2016. This collection was presented in international showcases such as: Maison-Objet (Paris and Singapore), Salone del Mobile-Milan, Carruselle del Luvre-Paris, Shanghai Design Week, ICFF NY and Révélations in Paris.
